

## **Sewer Permitting Procedure**

Sewer permits are issued to applicants upon payment of connection fees and verification of sewer line access and availability. Applicants may be required to furnish evidence of recorded easement for sewer laterals located on private property outside of the road right of way.

Connection fees are determined on a case-by-case basis depending on location of parcel and sewer facilities required.

Applicants can contact the District's Permit Engineer, James Nolte, at (760) 479-4124 for a sewer fee quotation and/or an appointment.
